

# Equipment, Consumables and Services for your Histology and Cytology workflows

Great offers  
available on  
brands such as:

**AnatoPath**   
Customer Focussed, Quality Assured.

**LIEBHERR**  
Quality, Design and Innovation

 **precipoint**

 **Simport**

 **TRAJAN**

**medline**  
scientific

Inspired Solutions for your Laboratory

**deltalab**

**JEIO TECH**

**Medline Scientific has been a major supplier for the NHS, PHE and private healthcare organisations for over 25 years.**

**We support medical research and scientific innovation through the provision of high-quality equipment, consumables and services.**

With our comprehensive product portfolio and a tailored approach, we strive to meet the requirements of each and every customer.

We offer a complete range of equipment, instrumentation, consumables and services for your histology and cytology workflows. Everything you need to prepare, preserve, cut, stain and view.

For further information or to request a quotation, please contact us:

## Tissue Marking Dye

Provides distinctive and permanent colours that do not 'bleed' into surrounding tissue or wash out during tissue processing. No pre- or post-treatment steps required before or after application. Completely organic and atoxic making dyes suitable for use in theatres at tissue source, and in the laboratory.

PC, Linux and MAC IOS software is included. Can be used with optional 11.6" monitor.</p>	Each	£1,056.84	<b>£635.00</b>
	9556.5800M	<p>Ceti 11.6" HD Monitor for WFHD5C Camera</p> <p>Features a Panasonic IPS LCD (Super TFT) to guarantee a wide viewing angle and high resolution. The LCD panel has true 1080P resolution, a high contrast ratio (up to 1000:1), LED backlight with 50,000 hours long life time and an 11.6" active area.</p>	Each	£661.29	<b>£400.00</b>

## CX43 Upright microscope

The CX43 is a compact routine microscope that is versatile enough for all clinical microscopy tasks. The UIS2 optics give excellent flat images and the adjustment-free illumination system ensures consistent image quality and increases in work efficiency. The small foot print and upgrade options make the CX43 an excellent choice for routine clinical environments.

- Pre-set Kohler illumination for adjustment free, optimal image quality
- Uniform illumination with consistent colour temperature at any brightness level
- Easily upgradeable for polarised light, phase contrast and fluorescence sample observation, as well as digital imaging
- Long life time LED illumination (60,000 hr) with low power consumption for reduced running costs

Special offer: Complete systems start from £2,486.25

## BX43 Upright microscope

The BX43 is a modular clinical microscope ideal for every clinical application. The true colour LED illumination is designed specifically for clinical samples such as H&E stained tissue. The BX43 is a fully flexible system that can be configured to meet the optical and ergonomic requirements of any clinical laboratory.

- True colour LED illumination optimised for pathology applications
- Olympus UIS2 objectives give excellent optical performance for flat images
- Light Intensity Manager sets correct light level for each magnification, reducing eye fatigue and improving work efficiency
- Fully modular system allowing future flexibility for observation methods and digital imaging
- 20,000 hour LED life time with low power consumption for reduced running costs

Special offer: Complete systems start from £5,372.25

**OLYMPUS**<sup>®</sup>

Your Vision, Our Future

CX43 Upright binocular microscope for brightfield sample observation with 4x, 10x, 20x and 40x magnification objectives.

BX43 Upright binocular microscope for brightfield sample observation with 4x, 10x, 20x and 40x magnification objectives.

## M8 – Microscope and scanner

With the M8, you can digitise your microscopic workflow. The M8 serves both, as a microscope and a scanner. It allows you to directly work on your samples via real-time scanning. You can perform various analyses, and scan your slides for documentation and future viewing. Sharing your slides and working remotely is easy.

### Benefits:

- Quickly digitise samples
- Access samples from anywhere at anytime
- Instantly navigate across slides with real-time scanning
- View and annotate samples live; share and discuss with colleagues all over the world
- Cloud and image analysis
- Easy-to-use design and easy-to-clean horizontal stage

## O8 – Oil Microscope and scanner

The unique solution for oil immersion whole slide scanning, real-time scanning and general digital microscopy. Having access to whole slide digital images helps users to simplify and standardise their work, thereby increasing efficiency and quality. Accelerate and digitise your workflow with the O8.

### Benefits:

- Best-in-class solution for oil immersion scanning
- Whole slide imaging with 100x oil objective
- Access samples from anywhere at anytime
- Instantly navigate across slides with real-time scanning
- Easy-to-use design and easy-to-clean horizontal stage
- Cloud and image analysis

	LECLSFSR158UK	LEC LSFSR158UK Spark-free fridge Laboratory under bench fridge features a digital controller, spark free interior, a lockable door and audible and visual temperature alarms. Dimensions: HxWxD 850 x 595 x 660mm.	Each	£695.05	<b>£591.00</b>

## Stirling Ultracold ULT freezers

With innovative compressor-free technology, the SU780XLE (780L) ULT freezer offers secure, reliable and energy-efficient storage.

- Free-piston Stirling engine technology
- Uses 70-75% less energy than standard cascade compressor-based ULTs
- Largest storage capacity per m<sup>2</sup> of floor space

Also available: SU105UE (105L) compact under bench and ULT25NEU (25L) portable models.

# Laboratory Service Solutions

**Our comprehensive portfolio of laboratory support services is designed to keep your equipment and instrumentation running reliably and efficiently, for longer. We offer flexible, tailored solutions with simplified communication via our dedicated Service Portal.**

#### Benefits:

- ✓ Minimise unplanned and costly downtime
- ✓ Safeguard your valuable work
- ✓ Maximise equipment efficiency and prolong life cycle
- ✓ Ensure accuracy and reliability for your research or production
- ✓ Reclaim valuable laboratory space
- ✓ Peace of mind for busy laboratories
- ✓ Online help desk system for simple logging of issues

**Don't let unplanned downtime delay your research**

#### Our services include:

- Health checks, service and maintenance contracts, and breakdown cover for fridges, freezers, ULTs and cryogenics to -150°C
- Extended warranties and repairs for equipment and refrigeration
- Temperature calibration
- ULT freezer hire/loan service
- Off-site bio-repository solutions
- Wireless alarm monitoring systems
- Sustainability services such as energy monitoring and 'green upgrade' for refrigeration

**Inspired Service Solutions  
for your Laboratory**

**Other premium brands available from Medline Scientific for your histology workflows:**

**Bright  
Instruments**

**Hettich**  
ZENTRIFUGEN

**LEEC**

**Lec**  
MEDICAL
