# Inspired Solutions for Teaching Labs

**medline**  
scientific

A CALIBRE SCIENTIFIC COMPANY

**ELKAY**

A CALIBRE SCIENTIFIC COMPANY

## Inspired Solutions for Teaching Laboratories

We've hand picked a small selection of economical, robust, and easy to use equipment—ideal for teaching laboratories. You'll also find great value for money consumables and precise solutions for your liquid handling needs.

Please contact your Regional Account Manager to discuss your Medline Scientific or Elkay requirements, and to request a quotation.

### Ceti Max III Binocular Compound Microscope

Ideal for teaching in colleges and universities, these microscopes feature a convenient carry handle, cord storage, and simple operation. Robust construction and high clarity optics make the Max III an excellent choice for everyday applications in teaching labs.

**Features:** Widefield 10X, FN18 eyepieces; LED illumination; Achromatic objectives.

Great value for money

| Cat. No.  | Product Description   |
|-----------|---|
| 1203.2004 | Max III Binocular Compound Microscope with 4x, 10x, 40x and 100x Achromatic Objectives and LED Illumination |

Other configurations are available including monocular and trinocular, and packages with Infinity Corrected Plan Achromatic objectives.

## Sustainable Solutions for Laboratories

We offer a range of products and services to help you work more sustainably without impacting your daily workflows.

- Improve energy efficiency
- Lower running costs: Energy and water
- Reduce environmental impact
- Lower your carbon footprint

Discover the range on [www.medlinescientific.com](http://www.medlinescientific.com)

## Ceti Magnum Compound Microscopes

The highly popular Ceti Magnum range offers modern ergonomic features to ensure a comfortable viewing position for prolonged use. These microscopes are ideal for the examination of slide-mounted samples in QC, research, degree teaching, and many industrial applications.

**Features:** Widefield 10X, FN20 eyepieces; LED illumination; four Phase Contrast objectives; full Köhler illumination. Trinocular models include a photo port.

### High quality and economical

| Cat. No.   | Product Description   |
|------------|---|
| 2638.0000M | Magnum Binocular Compound Microscope with 10x, 20x, 40x and 100x Phase Contrast Objectives, LED Illumination  |
| 2738.0000M | Magnum Trinocular Compound Microscope with 10x, 20x, 40x and 100x Phase Contrast Objectives, LED Illumination |

Other configurations available for polarisation, epi-fluorescence, and brightfield.

## Ceti Steddy Stereo Microscope

Ceti's most popular zoom model; the Steddy zoom microscopes are robust with a wide zoom range and wide field of view. They offer bright, crisp 3D images and a choice of base shape (broad or diamond) to suit different sample sizes and manipulation techniques. Ideal for use in laboratories and industry, particularly as a QC examination tool.

**Features:** Super widefield 10X, FN22 eyepieces; dual LED illumination; trinocular head with photo port; wide magnification zoom range 3.35 to 180X (with optional eyepieces/lenses).

**Robust**

### Versatile and robust

| Cat. No.   | Product Description  |
|------------|--|
| 7500.0000M | Steady-T Trinocular Stereo Microscope with Diamond Base with Zoom Ratio 0.67x – 4.5x |

Contact us for information on other configurations, including: Broad base models and integrated camera.

## Refrigeration – Service Solutions

A comprehensive portfolio designed to maximise the efficiency, reliability, and accuracy of your equipment.

- Health checks
- Servicing and preventative maintenance contracts
- Flexible breakdown cover
- On-site repairs
- Temperature calibration to UKAS standards

**Please contact our dedicated Services Team for more information: [enquiries@medlinescientific.com](mailto:enquiries@medlinescientific.com)**

## Medline VX-3000MD Vortex Mixer

Compact mixer provides efficient agitation throughout the speed range, utilising either touch activation or continuous mode.

**Features:** LED display for speed and time; rubber feet to minimise any vibration and movement.

**Strong, reliable, and quiet**

| Cat. No.  | Product Description                                   |
|-----------|---|
| VX-3000MD | VX-3000MD Vortex Mixer, 6mm Orbit, Speed 0 to 3000rpm |

Range of accessories available. Please enquire.

## Medline Mini Vortex Mixer

Designed for mixing tubes. Ideal for personal use and for teaching labs. Easy to store and use in small spaces (e.g. fume hoods).

To start mixing, the tube just needs to be pushed gently into the mixer's attachment. Mixing stops as soon as the tube is removed again.

**Features:** Foot pad design minimises 'walking'; suitable for cold rooms and incubators (non CO<sub>2</sub>).

**Small, efficient, and robust**

**Robust design**

| Cat. No. | Product Description                                 |
|----------|---|
| FE101001 | Mini Vortex Mixer, 5.5mm Orbit, Fixed Speed 3000rpm |

## Medline MD1008 Mini Microcentrifuge

Suitable for many applications including tissue/cell culture, molecular biology, clinical applications as well as proteomics and genomics. The DC motor produces a noise level of just 45dB. Rotors are included.

**Features:** Fixed speed operation; simple dual start/stop function; rotors supplied for 8x 0.2/0.5/1.5/2ml tubes and 1x 0.2ml 16 PCR strips or 2x 0.2ml PCR 8 strips.

**Quiet operation and small footprint**

| Cat. No. | Product Description  |
|----------|--|
| MD1008   | MD1008, 7000rpm Mini Microcentrifuge, Fixed speed 7000rpm/2680xg |

## Medline Analogue Hotplate, Stirrer, and Hotplate Stirrer

Large heating/stirring area. Chemically-resistant ceramic-coated steel construction. Delivers reliable performance at a great price.

**Features:** 180 x 180mm plate; 12.5mm screwed thread for retort rod (not included); max capacity 5L (MS-200 and MS-300).

### Excellent reliability and economical

| Cat. No. | Product Description   |
|----------|---|
| MS100    | MS-100 Analogue Hotplate, Max 400°C                               |
| MS200    | MS-200 Analogue Magnetic Stirrer, Speed 100 to 1500rpm            |
| MS300    | MS-300 Analogue Hotplate Stirrer, Max 400°C, Speed 100 to 1500rpm |

## A&D HR-A Compact Analytical Balance

Robust, entry-level balances with a shatterproof, anti-static draft shield that is easily removable. The rotary doors give HR-A balances a small footprint and the reverse backlit LCD display provides easy to read weighing results.

**Features:** Response time of approx. 2 seconds; energy-saving auto power ON/OFF function; statistical calculation function; standard RS-232C; external calibration.

### Shock absorber function

| Model           | HR-251A   |
|-----------------|-----------|
| Capacity (g)    | 62/252    |
| Resolution (mg) | 0.1/1     |
| Pan size (mm)   | ø90       |
| Cat. No.        | ADHR-251A |

Other models are available in this range. Please enquire.  
Options include: Built-in rechargeable NiMH battery pack; quick USB interface (no driver installation required); LAN-Ethernet interface with WinCT-Plus software; balance cover; density measurement kit.

**4-year warranty!**

## Inspired Solutions for Teaching Labs

We pride ourselves on delivering cost effective and tailored solutions.

If you are unsure which balance/pH meter/microscope etc. you need, please contact us to discuss your requirements.

- Special pricing for bulk purchases
- Small equipment demos\*

**Get in touch to discuss your application and requirements.**

\*Subject to availability of demonstration stock.

## LLG Labware Equipment

This range from LLG includes a wide selection of high performing equipment for many applications including centrifuges, shakers, mixers, and spectrophotometers. Complementary accessories available.

- 3-year warranty
- Excellent quality
- Cost effective

**Ideal for your teaching lab requirements. Please contact us to find out more.**

## A&D FX-i Series Precision Balance

A compact and lightweight precision top pan balance that comes with a host of features. Its VFD display provides easy to read weighing results.

**Features:** Shock absorber function; response time of approx. 1 seconds; energy-saving auto power ON/OFF function; statistical calculation function; standard RS-232C; external calibration.

**Fast response time!**

**4-year warranty!**

| Model          | FX-1200i   |
|----------------|------------|
| Capacity (g)   | 1220       |
| Resolution (g) | 0.01       |
| Pan size (mm)  | ∅150       |
| Cat. No.       | ADFX-1200i |

Other models are available in this range. Please enquire.

Options include: Built-in rechargeable NiMH battery pack; quick USB interface (no driver installation required); LAN-Ethernet interface with WinCT-Plus software; balance cover; small draft shield (FX-i models); animal weighing pan.

## Reagecon pH Buffers and Solutions

pH Buffer solutions tested by an ISO17025 Accredited Test Method with an accuracy of  $\pm 0.01$  pH units and NIST traceable.

- Directly traceable to the IUPAC pH scale by an unbroken chain of traceability
- Guaranteed stability throughout shelf life, even after opening
- Various packaging options available e.g. Colour Coded, Twin Neck Bottles, Bag-in Box
- Certificates of Analysis and Safety Data Sheets available

**Contact us to request your FREE pH buffer sample.**

Electrode filling, cleaning and storage solutions also available.

**ISO Compliant**

## Hanna Instruments HI-2002 edge® pH Single Parameter Meter

Choose from hand-held, wall-mounted or bench-top operation, or switch between all three!

**Features:** Programmed for basic and advanced modes with pH, mV pH and ORP reading modes; digital smart electrode compatible; large 140mm LCD display with capacitive touch keys.

- pH range: -2.00 to 16.00; accuracy  $\pm 0.01$ ; resolution 0.01 (basic mode)
- mV range:  $\pm 1000$  mV; accuracy  $\pm 0.2$ ; resolution 0.1
- Log-on demand and interval logging
- GLP data: Records date, time, offset, and cell constant value (K)
- PC interface via micro USB; data download onto USB stick

**Large display**

### Ultimate versatility

| Cat. No.   | Product Description   |
|------------|---|
| HANHI-2002 | Edge® pH Meter with HI-11310 Glass Body Refillable pH Electrode |

Supplied with: Bench-top stand; electrode holder; bracket for wall-mount; USB cable; power adaptor; instruction manual; HI-11310 digital pH electrode with integrated temperature sensor; sachets of pH 4.01, 7.01, 10.01 buffer solutions; sachet of electrode cleaning solution.

## Hanna Instruments HI-991001 Extended Range pH/pH-MV/ORP and Temperature Meter

Waterproof (IP67) meter with rugged titanium-bodied electrode with built-in temperature sensor for temperature compensated pH and temperature readings.

**Features:** Simultaneous pH and temperature measurements on a large dual-line LCD display; auto-off function.

- pH range: -2.00 to 16.00; accuracy  $\pm 0.02$ ; resolution 0.01
- mV range:  $\pm 825$  mV; resolution 1
- Automatic pH calibration at one or two points within two memorised buffer sets
- Indicators for: Electrode condition; battery life; low battery

### Tough and waterproof

| Cat. No.    | Product Description   |
|-------------|---|
| HANHI991001 | HI-991001 pH/mV/ORP Meter with Titanium-bodied Electrode with Integral Temperature Sensor |

Supplied with: HI-12963 pH/temperature probe with titanium body and DIN connector with 1m cable; pH 4.01 & 7.01 buffer sachet; HI-700601 general electrode cleaning solution (2 sachets); 100ml beaker; alkaline batteries: 1.5V AAA x3; rugged carrying case; calibration certificate of meter; calibration certificate of probe; instruction manual.

## Priorclave Base Range Autoclaves

High-efficiency, cylindrical-chamber, front-loading autoclaves, well suited to smaller research, quality assurance, and teaching labs.

**Features:** The Base range covers “the basics”: media preparation, waste loads, and sterilising loose instruments, open containers, and labware. Base models include fully programmable cycle customisation, “media warming,” integrated cooling and free-steaming systems, and drain protection.

- Tactrol® 3 microprocessor control with simple and fully variable setting of process time, temperature with graphic indication of cycle status
- Automatic timed free-steaming
- Forced air cooling
- Low water level sensor
- Two loading shelves

Visit our website for full specifications.

### Easy maintenance and light resource consumption

| Cat. No.       | Product Description                                     |
|----------------|---|
| PRIOB40-BASE   | 40 Litre Bench Top Autoclave, Base Range                |
| PRIOEH150-BASE | 150 Litre Front Loading, Electric Autoclave, Base Range |

Other volumes available; please enquire.

## Priorclave Smart Range Autoclaves

Designed for industrial, research, and production labs and facilities with greater or more diverse needs.

**Features:** Priorclave’s Smart range adeptly handles standard tasks (e.g. media prep, waste loads, labware) but can also produce drier loads and more reliably handle complex loads that tend to trap air. Ideal for mixed waste, biological waste, pathogen-heavy materials, cloth and textile sterilisation, soil and substrate preparation, wrapped instruments, and porous loads.

In addition to the features listed above for the Base range, Smart autoclaves offer:

- Pre-cycle vacuum in which multiple Vacuum stages are programmed with interspersed heating to achieve steam penetration
- Pulsed free-steaming to maximise efficiency of Pre-cycle vacuum phase
- Vacuum assisted cooling

Visit our website for full specifications.

### Pre-cycle and post-cycle vacuum

| Cat. No.        | Product Description                                      |
|-----------------|--|
| PRIOB40-SMART   | 40 Litre Bench Top Autoclave, Smart Range                |
| PRIOEH150-SMART | 150 Litre Front Loading, Electric Autoclave, Smart Range |

Other volumes available; please enquire.

## Dispensette® S / Dispensette® S Organic Bottle-top Dispensers, Analogue, Adjustable

Whether you are dispensing solvents, acids, alkalis, or saline solutions—the Dispensette® S bottle-top dispenser makes it easy, safe, and efficient.

With numerous accessories available, the Dispensette® S offers efficient solutions for special applications such as long series, sterile applications, and moisture-sensitive media.

**Features:** Rapid and safe volume setting with new internal scalloped track. Simple calibration adjustment with a supplied tool.

- Simple: Wide range of applications for organic solvents, acids, alkalis, and saline solutions
- Easy: Minimum operating forces, maximum comfort
- Efficient: Reliable in challenging continuous operation and with aggressive media

**Dispensette® S Organic** (yellow colour-code): Ideal for dispensing organic solvents, including chlorinated and fluorinated hydrocarbons (e.g., trichlorofluoroethane and dichlormethane), acids like concentrated HCl and HNO<sub>3</sub> (except HF), trifluoroacetic acid (TFA), tetrahydrofuran (THF), and peroxides.

### Suitable for a wide range of media and applications

| W/o recirculating valve                            | W/ recirculating valve | Capacity   | Subdivisions | Accuracy      | Coefficient of variation |
|--|------------------------|------------|--------------|---------------|--------------------------|
| <b>Dispensette® S, Analogue-adjustable</b>         |                        |            |              |               |                          |
| 4600100  | 4600101                | 0.1 - 1ml  | 0.02ml       | ≤±0.5% / 5µl  | ≤±0.1% / 2µl             |
| 4600120  | 4600121                | 0.2 - 2ml  | 0.05ml       | ≤±0.5 / 10µl  | ≤±0.1% / 2µl             |

| 4630160  | 4630161                | 5 - 50ml   | 1.0ml        | ≤±0.5 / 250µl | ≤±0.1% / 50µl            |
| 4630170  | 4630171                | 10 - 100ml | 1.0ml        | ≤±0.5 / 500µl | ≤±0.1% / 100µl           |

Calibrated to deliver (TD, Ex). Error limits according to the nominal capacity (= maximum volume) indicated on the instrument, obtained with instrument and distilled water at equilibrium with ambient temperature at 20 °C, and with smooth, steady operation. The error limits are well within the limits of DIN EN ISO 8655-5. DE-M marking.

## Brand Transferpette® S Pipettes, Adjustable Volume

A slim grip fits comfortably and securely in any hand—right, left, big or small.

The Transferpette® S is lightweight and balanced, with short operating paths for comfort, even in extended pipetting sessions.

- Efficient one-hand operation
- Flexible ergonomic design for right or left hand pipetting
- Reliable volume change protection prevents accidental adjustments
- Universal tip cone
- Completely autoclavable at 121°C
- Colour-coded pipette accents make pipette and tip selection simple
- Easy mounting and ejection of tips with O-rings on multi-channel pipettes
- 3-year warranty for single-channel pipettes

### Robust reliability from Brand

| Cat. No.                                   | Product Description | Quantity |
|--|---------------------|----------|
| <b>Transferpette® S Single-channel</b>     |                     |          |
| 705868                                     | 0.1 - 1µl           | 1        |
| 705869                                     | 0.1 - 2.5µl         | 1        |
| 705870                                     | 0.5 - 10µl          | 1        |
| 705872                                     | 2 - 20µl            | 1        |
| 705873                                     | 5 - 50µl            | 1        |

| 705926                                     | 5 - 50µl            | 1        |
| 705928                                     | 10 - 100µl          | 1        |
| 705930                                     | 20 - 200µl          | 1        |
| 705932                                     | 30 - 300µl          | 1        |

Please contact us for information on Starter Packs and other volumes.

## Brand accu-jet® S Pipette Controllers

Make your work simple, easy and efficient.

Precise pipetting of large and small volumes is easy due to single-handed control of pipetting speed for fast, powerful aspiration, accurate meniscus setting, or precise dispensing of small volumes.

Designed to make routine service tasks such as membrane filter replacement, adapter change, or battery replacement simple and easy.

Choose between gravity-delivery (for pipettes calibrated “to deliver”) or powered blow-out delivery (for pipettes calibrated “to contain”).

Packaging contains more than 90% recycled material, and manufacturing is powered from renewable sources.

**Features:** Single-handed control of pipetting speed. Up to 8 hours of continuous pipetting without recharging. Valve system protects against corrosion. Ergonomic handgrip and perfectly balanced design.

**For glass and plastic pipettes from 0.1 to 200ml**

| Cat. No. | Product Description  | Quantity |
|----------|--|----------|

## Sartorius Midi Plus Pipette Controller

Sartorius Midi Plus™ is a lightweight cordless pipetting controller which allows aspiration from bottles and tubes without the arm and hand elevations required with serological or volumetric pipettes.

**Features:** Easy speed adjustment to suit large or small volume pipets. Fits all commonly used glass or plastic pipettes (1-100ml).

**Suitable for aspiration and dispensing**

| Cat. No. | Product Description          | Quantity |
|----------|------------------------------|----------|
| 710931   | Midi Plus Pipette Controller | 1        |

## Ripette® pro Repeat Dispenser and Tips

Ripette® pro is a comfortable, easy-to-use mechanical repeat dispenser ideal for dispensing liquids into microplates, microtubes, culture flasks and other vessels.

**Features:** 10 volume adjustments and 120 program steps. Compatible with 12 tip sizes.

Ritips® Professional Dispenser Syringes have been specifically designed to fit together with the Ripette® pro. However, the Ripette® pro is also fully compatible for use with Brand PD-Tip™, Eppendorf Combitips® and Combitips® plus.

### Flexible liquid handling

| Cat. No.   | Product Description   | Quantity |
|------------|---|----------|
| 42020-0000 | Ripette® pro Repeat Dispenser   | 1        |
| 40077-0000 | 0.1ml Ritips Evolution Dispenser Syringe, DNase and RNase Free          | 100      |

| 40077-0020 | 50ml Ritips Evolution Dispenser Syringe, STERILE, Individually Wrapped  | 25       |
| 43001-0947 | Adaptor for use with 25ml Multitip/Ritips Evolution Syringe             | 1        |
| 43001-0948 | Adaptor for use with 50ml Multitip/Ritips Evolution Syringe             | 1        |

## Medline Pasteur Pipettes, Graduated

Manufactured from transparent, inert, low density polypropylene.

Sterile version sterilised by Ethylene Oxide.

**Features:** Graduations 0.25ml for 1ml pipettes and 0.5ml for 3ml pipettes; volumetric tolerance  $\pm 10\%$ .

**Economical and suitable for a variety of applications**

| Cat. No. | Volume               | Sterility   | Packed              |
|----------|----------------------|-------------|---------------------|
| 200003   | 1ml Pasteur Pipettes | Non-sterile | 500                 |
| 200032R  | 1ml Pasteur Pipettes | Sterile     | 500 (25 bags of 20) |
| 200006   | 3ml Pasteur Pipettes | Non-sterile | 500                 |
| 200062R  | 3ml Pasteur Pipettes | Sterile     | 500 (25 bags of 20) |

Other volumes and glass versions are also available. Please contact us for information.

## Dentalab, Non-sterile Bulk Pipette Tips

Dentalab's non-sterile bulk packed pipette tips offer great value for money.

**5 – 200 $\mu$ l Pipette Tips:** Dentalab's Yellow Eppendorf-compatible Pipette Tips are metal free and have clear graduations, allowing users to see if the correct volume has been pipetted. Their delicate tip cones enable the tips to be easily sealed.

**100 – 1000 $\mu$ l Pipette Tips:** Made of high-quality polypropylene, Dentalab's Blue Universal Pipette Tips deliver great volume accuracy due to their clear-cut opening. They are suitable for all common pipettor types (e.g. Eppendorf®, Gilson®) and have a collar.

**Great value for money!**

| Cat. No. | Product Description                                  | Quantity |
|----------|--|----------|
| 200009   | 5 – 200 $\mu$ l Yellow Eppendorf Pipette Tips, Bulk  | 1000     |
| 200012   | 100 – 1000 $\mu$ l Blue Universal Pipette Tips, Bulk | 1000     |

Many other tip sizes available, please enquire for more information.

## LVL Technologies 2D Barcoded Tubes

Secure 2D barcoded tubes (from 200  $\mu$ l to 4,000  $\mu$ l) and accessories, ideal for biobanking, cryopreservation, compound management, and more.

- Reliable sample identifiability and traceability
- Secure storage and excellent leak tightness
- Customisable
- Automation compatible

**Contact to us to discuss your applications and requirements.**

## Elkay Pettecheck Pipette Service and Calibration

Single or multi-channel, mechanical or electronic, controllers or repeat dispensers—Elkay can service and calibrate all types, makes, and models.

- ISO-8655 compliant calibration or UKAS Service
- All pipettes are dismantled, cleaned inside and outside, functional tested and leak tested
- Onsite (Your lab)—Fastest turnaround on the day
- Offsite (Our lab)—5-7 day guaranteed turnaround on all pipettes
- All spare parts are inclusive of quoted price—no hidden costs up to set values

**ISO Compliant**

**For more information or to request a quotation, please contact us.**

## Elkay Low Binding Filter Tips

Elkay filter (or barrier) pipette tips protect in two ways: By guarding the tip cone from aerosol contamination and by protecting the sample in the tip from contaminated pipettes. Low binding plastics create a hydrophobic surface on the inner wall which minimises sample binding.

No additives used, the polymer is both chemically resistant and inert. No interaction with most common laboratory solvents such as acetone and chloroform.

**Features:** Manufactured from premium-grade virgin polypropylene; RNase, DNase, DNA and Pyrogen free; ideal for PCR applications

**Low binding**

**Accurate and precise**

| Cat. No.     | Product Description   | Quantity |
|--------------|---|----------|
| AER-UPEX-S96 | 10µl Filter Pipette Tip, Extended, Natural, Sterile, Racked     | 960      |
| AER-UPIP-S96 | 10µl Filter Pipette Tip, Natural, Sterile, Racked               | 960      |
| AER-OREF-S96 | 20µl Filter Pipette Tip, Natural, Racked                        | 960      |
| AER-1REF-S96 | 20, 100 and 200µl Filter Pipette Tip, Extended, Natural, Racked | 960      |
| AER-2REF-S96 | 100µl Filter Pipette Tip, Natural, Racked                       | 960      |
| AER-5REF-S96 | 200µl Filter Pipette Tip, Natural, Racked                       | 960      |
| AER-4REF-S96 | 300µl Filter Pipette Tip, Extended, Natural, Racked             | 960      |
| AER-7REF-S96 | 200µl (20-200µl) Filter Pipette Tip, Natural, Racked            | 960      |
| AER-6REF-S96 | 200µl Filter Pipette Tip, Natural, Racked                       | 960      |
| AER-STE1-A18 | 1000µl Filter Pipette Tip, Natural, Sterile, Racked             | 1000     |
| AER-STE9-A18 | 1250µl Filter Pipette Tip, Extended, Natural, Sterile, Racked   | 768      |

## Elkay Filter Tips

Elkay offers a range of filter tips that reduce the risk of carry over and contamination. The hydrophobic inert filter material prevents aerosols from entering the tip cone of the micropipette.

Supplied in racks (96 positions), each rack has a hinged lid.

**Features:** Universal fit; certified DNase, RNase and Pyrogen free; ideal for PCR applications.

### G2 reinforced racks optimised for multi-channel use

**Hinged lid**

| Cat. No.     | Product Description   | Packed   |
|--------------|---|----------|
| BER-UPIP-S96 | 10µl Filter Pipette Tip, Natural, Racked Moulded Graduation at 10µl               | 960      |
| BER-OREF-S96 | 20µl Filter Pipette Tip, Natural, Racked Moulded Graduation at 10µl               | 960      |
| BER-STE1-A18 | 1000µl Filter Pipette Tip, Natural, Racked Moulded Graduation at 500µl and 1000µl | 10 x 100 |
| BER-STE9-A18 | 1250µl Filter Pipette Tip, Natural, Racked Moulded Graduation at 50/100/200/500µl | 10 x 100 |

## Elkay Loose Pipette Tips

Elkay standard pipette tips are designed to fit and function on a wide variety of single or multi-channel pipettors. Tips are tested for optimum fit, function, and straightness. In order to reduce operator fatigue, Elkay tips require minimal force for loading and tip ejection.

**Features:** Fit most common pipettes; manufactured from 100% virgin polypropylene.

### For all your general liquid handling needs

| Cat. No.     | Product Description  | Quantity |
|--------------|--|----------|
| RES-UPIP-010 | 10µl Pipette Tip, Natural with Reference Lines, Non Sterile, Bulk  | 1000     |
| PIPT-01B     | 200µl Pipette Tip, Lemon, Non Sterile, Bulk  | 1000     |
| 018          | 1000µl Pipette Tip, Blue, Non Sterile, Bulk  | 1000     |
| 026          | 5ml Pipette Tip, Blue, Natural, Non Sterile, Bulk  | 250      |
| 036A         | 10ml Pipette Tip, Natural, Non Sterile, Bulk   | 100      |
| 070          | 10ml Pipette Tip, Natural, Non Sterile, Bulk. Specifically designed to fit and function on the Finnpiquette® single channel pipettor | 100      |

Other tip sizes available, please enquire for more information.

## Elkay Pipette Tips and Refill Packs

IVD certified pipette tips designed to fit a wide variety of single and multi-channel pipettors.

**Racked tips:** Supplied in racks (96 positions). Each rack has a hinged lid and each tip compartment in the rack is isolated to reduce the possibility of cross contamination.

**Refills:** Nested tip wafers are supplied in cardboard boxes and can be easily snapped into place using reusable, autoclavable racks which may be purchased separately. Refill systems can help reduce overall plastic waste.

**Features:** Manufactured from ultra-pure USP class VI certified virgin polypropylene (conforming to US FDA 21 CFR); certified DNase, RNase, DNA, Endotoxin, Pyrogen, and ATP free. Moulded graduations and universal fit.

### IVD certified

| Cat. No. | Product Description  | Packed  |
|----------|--|---------|
| P10139S  | 0.1-10µl Pipette Tips, Extended, Natural, Racked, Moulded Graduations        | 10 x 96 |
| P10140S  | 1-200µl Pipette Tips, Bevelled, Yellow, Racked, Moulded Graduations          | 10 x 96 |

| P10176R  | 100-1000µl Refill Pipette Tips, Natural, Moulded Graduations                 | 30 x 96 |
| P10177R  | 100-1250µl Refill Pipette Tips, Natural, Moulded Graduations                 | 24 x 96 |

## Elkay Recycling Service

We offer a free recycling service for polypropylene pipette tip racks, lids, and packaging supplied by Elkay.

- Free collection\*
- Free bins
- Reliable service

All empty racks must be fully decontaminated and certified as such.  
\*Minimum quantities in place for collection.

**Please contact us to find out more.**

## Elkay Microcentrifuge Tubes

Made from polypropylene with positive snap-seal closure for leak tight seals.

**Features:** Pierceable tops for easy sample removal; graduated lines for volume estimation at a glance; autoclavable.

**A great economical alternative to premium brands**

| Cat. No.   | Product Description   | Quantity |
|------------|---|----------|
| MICR-050   | 0.5ml Microcentrifuge Tube with Integral Snap Lid, Natural. Spin rated to 34,000g   | 1000     |
| MICR-15018 | 1.5ml Microcentrifuge Tube with Integral Snap Lid, Natural. Spin rated to 21,380 RCF  | 1000     |
| MICR-209D  | 2.0ml Microcentrifuge Tube with Integral Snap Lid, Natural, DNase/RNase free. Spin rated to 20,000g. Low Retention Properties | 500      |
| MICR-069   | 0.6ml Microcentrifuge Tube with Integral Snap Lid, Natural, DNase/RNase free. Spin rated to 14,000g. Low Adhesion             | 500      |
| MICR-159   | 1.5ml Microcentrifuge Tube with Integral Snap Lid, Natural, DNase/RNase free. Spin rated to 20,000g. Low Adhesion             | 250      |

Please contact us for informaton on other tube sizes and types available.

## ABDOS Centrifuge Tubes

General purpose threaded centrifuge tubes made from PP for excellent chemical resistance. -STP sterile versions meet AAMI guidelines for irradiation.

**Features:** Polypropylene tube with blue screw cap. All tubes have white write on label and printed graduations (except 3093-000). Tube 3093-000 has moulded graduations and no write on label.

**Chemically resistant PP**

| Cat. No. | Product Description   | Quantity |
|----------|---|----------|
| 3098-STP | 15ml Centrifuge Tube, Conical, Sterile, Screw Cap, Assembled, Tray Rack 30x25                           | 750      |
| 3081-STP | 15ml Centrifuge Tube, Conical, Sterile, Screw Cap, Assembled, 25/bag x 20                               | 500      |
| 2082-STP | 50ml Centrifuge Tube, Conical, Sterile, Screw Cap, Assembled, 25/bag x 20                               | 500      |
| 2092-00P | 50ml Centrifuge tube, Conical, Sterile, Screw Cap Assembled, 25/bag x 20                                | 500      |
| 2092-00P | 50ml Centrifuge Tube, Conical, Non Sterile, Bulk Pack (Bag), Non Assembled                              | 500      |
| 2093-00P | 50 ml Centrifuge Tube, Conical, Skirted, Non Sterile, Bulk Pack (Bag), Non Assembled, DNase /RNase free | 500      |
| 3093-000 | 50ml Centrifuge Tube, Conical, Skirted, Non Sterile, Bulk Pack (Bag), Non Assembled                     | 500      |

Other versions available, please enquire.

## Medline High Resistance Sterile Conical Tubes

Made of transparent and copolymer polypropylene, Medline's conical tubes feature a solvent resistant white panel and black graduations.

Caps are blue polyethylene with an internal liner (liner not autoclavable), which ensures leakproofness.

**Features:** Sterile (by radiation); autoclavable; withstand temperatures down to -90°C (15ml tubes) or -80°C (50ml tubes). Supplied in bags of 50 with tamper-evident seal.

### Tamper-evident packaging

| Cat. No. | Product Description                            | Sterility | Packed      |
|----------|--|-----------|-------------|
| 409920   | 15ml Conical Tubes, Centrifugation to 17,000xg | Sterile   | 500 (10x50) |
| 409922   | 50ml Conical Tubes, Centrifugation to 20,000xg | Sterile   | 500 (10x50) |

Please get in touch for information on other products in the range, including: Skirted tubes, individually wrapped, polystyrene etc.

## Test Tubes, PS, FACS

Moulded from premium grade polystyrene for optical clarity. Round bottomed to ensure maximum sample recovery. Compatible test tube caps are also available.

**Features:** Manufactured from chemical free and inert materials. Centrifugation speeds up to 1400g and suitable for temperatures up to 70°C.

### Good optical clarity

| Cat. No. | Product Description  | Quantity |
|----------|--|----------|
| 2052-004 | 12x75mm Polystyrene Test Tube, FACS, Non Sterile, 1000/bag | 4000     |

## Tube Racks

MULTI-600 tube racks are designed to accommodate a full range of laboratory test and centrifuge tubes. 3-tier design facilitates the stability and insertion of taller tubes. Suitable for use in incubators, refrigerators, freezers, under lab hoods, and on bench tops.

**Features:** Made from highly resistant acetyl polymer. Lightweight, compact and stackable. Available in three colours.

### Ideal for test tubes, universals, and centrifuge tubes

| Cat. No.     | Product Description  | Quantity |
|--------------|--|----------|
| 175-M600-13B | MULTI-600 Tube Rack for Tubes up to 13mm, Blue. Holds 84 tubes   | 1        |
| 175-M600-13G | MULTI-600 Tube Rack for Tubes up to 13mm, Green. Holds 84 tubes  | 1        |
| 175-M600-13Y | MULTI-600 Tube Rack for Tubes up to 13mm, Yellow. Holds 84 tubes | 1        |
| 175-M600-16B | MULTI-600 Tube Rack for Tubes up to 16mm, Blue. Holds 60 tubes   | 1        |
| 175-M600-16G | MULTI-600 Tube Rack for Tubes up to 16mm, Green. Holds 60 tubes  | 1        |
| 175-M600-16Y | MULTI-600 Tube Rack for Tubes up to 16mm, Yellow. Holds 60 tubes | 1        |
| 175-M600-30B | MULTI-600 Tube Rack for Tubes up to 30mm, Blue. Holds 18 tubes   | 1        |
| 175-M600-30G | MULTI-600 Tube Rack for Tubes up to 30mm, Green. Holds 18 tubes  | 1        |
| 175-M600-30Y | MULTI-600 Tube Rack for Tubes up to 30mm, Yellow. Holds 18 tubes | 1        |

Other versions available, please enquire.

## Ideal for Trace Analysis!

### Elkay Centrifuge Tubes

General purpose threaded centrifuge tubes in polypropylene for chemical resistance and strength. Natural screwcap provided, non-assembled. Ideal for trace metal analysis.

**Features:** Trace metal free material (ICP-MS detection levels below 1ppb for metals); conform to US FDA 21 CFR, free from natural rubber and heavy metal.

**High quality, certified tubes at an affordable price**

| Cat. No. | Product Description   | Quantity |
|----------|---|----------|
| 2086-TMF | 15ml Centrifuge tube (TMF) with Printed Graduations, PP                               | 500      |
| 2096-TMF | 50ml Centrifuge Tube (TMF) Natural Cap, Conical, Printed Graduations, Non Sterile, PP | 500      |
| 2093-TMF | 50ml Centrifuge Tube (TMF) Natural Cap, Skirted, Non Sterile, PP                      | 500      |

Other versions available, please enquire.

### ICP Pump Tubing, PVC

The 3 bridge PVC pump tubing is suitable for specialised pump systems such as Induction Coupled Plasma (ICP), as well as various peristaltic pumps including Ismatec. It is suitable for general laboratory use and is resistant to most routine chemicals.

**Features:** Transparency allows for convenient flow monitoring. PVC tubing bends easily, grips connectors firmly and simplifies pump set ups.

**Reliable performance**

| Cat. No.     | Product Description                     | Quantity |
|--------------|---|----------|
| 116-0549-C55 | Pump Tubing (ICP), Orange/White/Orange  | 12       |
| 116-0549-C56 | Pump Tubing (ICP), Black/Black/Black    | 12       |
| 116-0549-C57 | Pump Tubing (ICP), Orange/Orange/Orange | 12       |
| 116-0549-C59 | Pump Tubing (ICP), White/White/White    | 12       |
| 116-0549-C60 | Pump Tubing (ICP), White/Red/White      | 12       |
| 116-0549-C61 | Pump Tubing (ICP), Red/Red/Red          | 12       |
| 116-0549-C63 | Pump Tubing (ICP), Grey/Grey/Grey       | 12       |
| 116-0549-C65 | Pump Tubing (ICP), Yellow/Blue/Yellow   | 12       |
| 116-0549-C73 | Pump Tubing (ICP), Black/White/Black    | 12       |

Other versions available, please enquire.

## Cuvettes and Accessories

Elkay general purpose cuvettes offer a viable alternative to glass or quartz cuvettes. Optical grade polystyrene and PMMA cuvettes available—see wavelength range data for application.

Trays are made of expanded polystyrene to eliminate scratches.

**Wide selection available; please enquire**

| Cat. No.     | Product Description  | Quantity |
|--------------|--|----------|
| 127-1010-004 | Elkay Square Cuvette Cap, PE, Natural, Bulk Pack (Bag)   | 1000     |
| 127-1010-007 | 2.9 ml Elkay Micro-square Cuvette, Round Opening, 340-800nm, PS, Trays 5 x 100                                     | 500      |
| 759035       | 4.5ml Elkay Cuvette, 4-clear Sided, 340-900nm, PS, Trays 5 x 100   | 500      |

## Spectrophotometers

We can offer a wide range of spectrophotometers suitable for teaching environments from Ceti and Biochrom WPA:

- Single and dual beam units
- Visible and UV/visible models
- Life science units with pre-programmed methodologies
- Robust, stackable units

**Please contact us to discuss your application and requirements.**

## Cryoboxes, PP

Storage Box 100 is made from polypropylene. Each box has a hinged lid, is translucent for easy visibility, is stackable and will accommodate up to 100 tubes. BOX-CRYO-200 accommodates up to 200 tubes.

Suitable for cryovials and screw-capped microtubes from 0.5ml up to 2ml.

**Features:** Autoclavable and suitable for use to -80°C. Alpha-numeric grid on lid helps archiving and sample location.

Available in 6 colours for colour-coding

| Cat. No.     | Product Description                                 | Quantity |
|--------------|---|----------|
| BOX-CRYO-00B | Storage Box with Hinged Lid, Blue, 100 Positions    | 5        |
| BOX-CRYO-00G | Storage Box with Hinged Lid, Green, 100 Positions   | 5        |
| BOX-CRYO-00N | Storage Box with Hinged Lid, Natural, 100 Positions | 5        |
| BOX-CRYO-00R | Storage Box with Hinged Lid, Red, 100 Positions     | 5        |
| BOX-CRYO-00Y | Storage Box with Hinged Lid, Yellow, 100 Positions  | 5        |
| BOX-CRYO-0BK | Storage Box with Hinged Lid, Black, 100 Positions   | 5        |
| BOX-CRYO-200 | Storage Box with Hinged Lid, Natural, 200 Positions | 5        |

Other versions available, please enquire.

## Cryoboxes, PC

Cryostore™ Storage Boxes are made from extra-strong polycarbonate. Each box has a separate translucent cover for easy visibility and has a notched edge to the base to prevent misalignment. These boxes are stackable and will accommodate up to 81 cryovials and screw-capped microtubes.

**Features:** Autoclavable and suitable for use to -196°C. Air vents in the lid minimise condensation. Drain holes under the base.

| Cat. No.      | Product Description                             | Quantity |
|---------------|---|----------|
| BOX-CRYO-281B | Cryostore™ Storage Box for 1 to 2ml Tubes, Blue | 5        |
| BOX-CRYO-581B | Cryostore™ Storage Box for 3 to 5ml Tubes, Blue | 5        |

## Elkay Laboratory Tapes

Coloured ID tape for labelling samples and much more. Paper based surface suitable for all types of markers - fibre tips, ball point, gel pens etc.

Super strong adhesive means that labels can be used in freezers to -80°C.

**Suitable for all your labelling needs, even at -80°C**

| Cat. No. | Product Description               | Quantity |
|----------|-----------------------------------|----------|
| 0755-000 | White Laboratory Tape, 12m x 19mm | 1        |
| 0755-001 | Red Laboratory Tape, 12m x 19mm   | 1        |
| 0755-002 | Blue Laboratory Tape, 12m x 19mm  | 1        |
| 0755-003 | Green Laboratory Tape, 12m x 19mm | 1        |

Other colours available, please enquire.

## Elkay Autoclave Tapes

Autoclave Tape/Sterilising indicator tape has coloured indicator strips that appear after process is completed.

**Quality indication**

| Cat. No.     | Product Description                               | Quantity |
|--------------|---|----------|
| 175-ST19-048 | Autoclave Tape, 50m x 19mm, Green Indicator Strip | 1        |
| 175-ST25-036 | Autoclave Tape, 50m x 25mm, Brown Indicator Strip | 1        |

## Elkay Laboratory Marker Pens

Can be used to write on glass, plastic, metal, and porcelain even when surfaces are wet and cold.

**Features:** Medium point.

**Suitable for cold and wet surfaces**

| Cat. No.     | Product Description                                   | Quantity |
|--------------|---|----------|
| 011-0415-010 | Laboratory Marker Pen, Black, Permanent               | 10       |
| 011-0415-080 | Laboratory Marker Pen, Black, Permanent, Alcohol Fast | 10       |

## Nitrile Gloves, Powder-free

These nitrile gloves ensure unrestricted movement similar to that provided by classic nitrile gloves. At the same time, they provide an excellent barrier against invisible threats such as viruses, bacteria and fungi.

**Features:** Thicker walls mean better glove strength and less wear—even during long and complex procedures. Ambidextrous.

- Latex free, powder-free and odour-free
- Finger textured for a reliable, consistent grip
- Comply with EN455 parts 1-4. AQL 1.5
- Beaded cuff to assist with easy donning of the gloves and prevent roll down
- Free from latex protein, eliminating Type I Immediate Hypersensitivity reaction

### Perfect sensitivity and extra protection

| Cat. No.      | Product Description  | Colour | Packed   |
|---------------|--|--------|----------|
| STERINC500601 | Intco Synguard Nitrile Powder-Free Gloves - Small 5.5g       | Black  | 10 x 100 |
| STERINC500604 | Intco Synguard Nitrile Powder-Free Gloves - Medium 5.5g      | Black  | 10 x 100 |

| STERINC500960 | NVI Medic Powder-Free Nitrile Gloves - Extra Large | Blue   | 10 x 100 |

## Biodegradable Violet Blue Nitrile Gloves, Powder-free

Safe for medical use and food handling. These gloves incorporate biodegradable technology that kickstarts the biodegradation process once in landfill environment. This results in a quicker breakdown compared with standard nitrile gloves.

ASTM testing: 90% biodegradation in 490 days. Regular nitrile can take over 100 years.

**Features:** 3.5g thickness and ambidextrous.

- Latex free and powder-free
- Finger textured for a reliable, consistent grip
- Comply with EN455 parts 1-4. AQL 1.5
- Beaded cuff to assist with easy donning of the gloves and prevent roll down
- Free from latex protein, eliminating Type I Immediate Hypersensitivity reaction

### Biodegradable and latex free

| Cat. No.      | Product Description                                    | Colour      | Packed   |
|---------------|--|-------------|----------|
